

CS 3800 – Web Development I
Final Project – Spring 2018
Part 4 of 5

Progress check: Thursday, April 5, beginning of class. See project overview document for the progress check policy.

For this step, you should have a complete web site that meets the requirements as given on the Project Overview document. This part of the project will vary based on your site's purpose. Your home page should be in its final form and most (90% or more) of the functionality and styling should be complete.

Progress check requirements: You will be asked to demonstrate your website on your local machine.
